

PROPER OVER HANG IS REQUIRED!

Damage and/or failure caused by inadequate "Over-Hang" protection or Any Direct Sunlight will void your warranty. See Diagram below for adequate over-hang requirements:

Projection of Overhang (X)
Must be Equal to 3/4 of the
height (Y): From the bottom of
the door to the lowest point of
the Overhang

While wood doors are an outstanding choice for most applications, if your door will face constant extreme weather exposure - i.e. **ANY DIRECT SUNLIGHT**, desert sun, salt spray etc... an accelerated maintenance program must be implemented to preserve the integrity, appearance and life of your door. CBW Doors
